

Lapin Trust Index

Trust isn't a buzzword. It's a business driver.

This powerful diagnostic tool helps you turn trust into a competitive advantage and your most valuable currency.

The **Lapin Trust Index** reveals patterns most leaders haven't seen before, with specific recommendations that are transformational, strategic and scalable - so you walk away knowing exactly how and where to focus.

More meaningful than simple "scores" and more measurable than surface engagement data, this powerful diagnostic tool provides the truth behind the results, the insight beyond the information, and the important conversations that drive culture change.

What You Will Receive

- A streamlined diagnostic tool that elevates trust throughout your team.
- Evaluation of trust across **five critical dimensions** of organizational success.
- An insight-rich report that highlights strengths, exposes friction points and maps trust dynamics across roles & teams.
- Results that are visual, specific and broken down by role, turning trust into your most important performance lever.
- A customized **Lapin Leadership Session** that translates findings into practical, actionable recommendations.

Trust is Measurable. Trust is Built.

Trust is not the most visible part of leadership, but it may be the most essential. It's the true antidote to disengagement, higher turnover, culture drift, and decreased team efficiency.

79% of employees with high trust in their employer feel motivated at work.

63% of trusting employees almost never seek outside opportunities.

45% of the time, leadership overestimates the trust within their organization.

77% of employees in the U.S. do not strongly currently trust their leadership.
